

▯ User Documentation

Welcome to the MUMBI User Documentation! This guide walks you through all the end-user flows and features, helping you understand how to make the most of MUMBI's capabilities. Each section includes step-by-step instructions and wireframes for a visual reference.

▯ Getting Started

Step 1: Install the MUMBI App

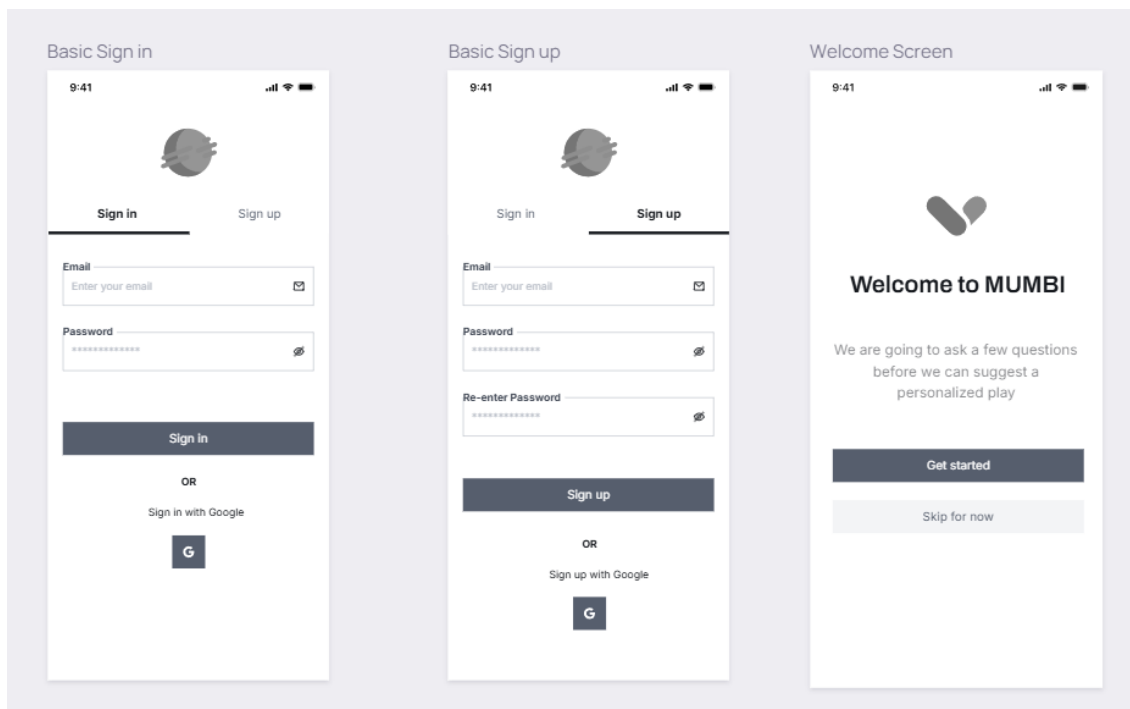

The app is currently in development and not yet available for public download. Stay tuned for updates! ▯

Step 2: Create Your Profile

1. Launch the MUMBI app.
2. Choose one of the following options to create your parent profile:
 - Enter your name and email address.
 - Sign up quickly using Google social login.
 - After creating your account, navigate to the sign-in page and log in using your credentials.

Step 3: Quick Onboarding with MUMBI

- After signing in, you'll be greeted by our friendly Welcome Screen, which guides you through a quick onboarding session tailored for first-time users.
- During onboarding, you can:
 - Set up your personal and your child's profile by entering their age, developmental preferences, etc.

□ Quick Onboarding Flow

Step 4: Your Name

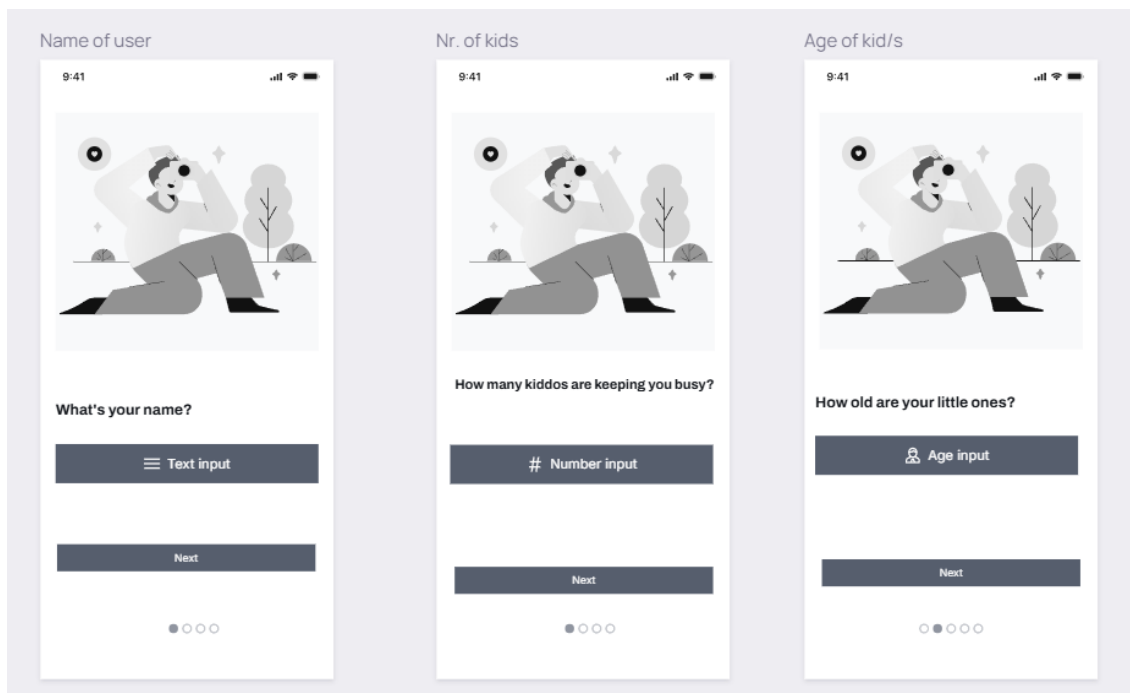

- During the onboarding process, we'll ask for your name or how you'd like to be addressed. This helps make the experience more personal and friendly!

Step 5: Number of Children

- Next, let us know how many children you have. This allows us to tailor playtime activities to match the dynamics of your family.

Step 6: Children's Ages

- Finally, share the ages of your child or children. This ensures that our playtime suggestions are age-appropriate and aligned with their developmental stages.

Step 7: Health Considerations

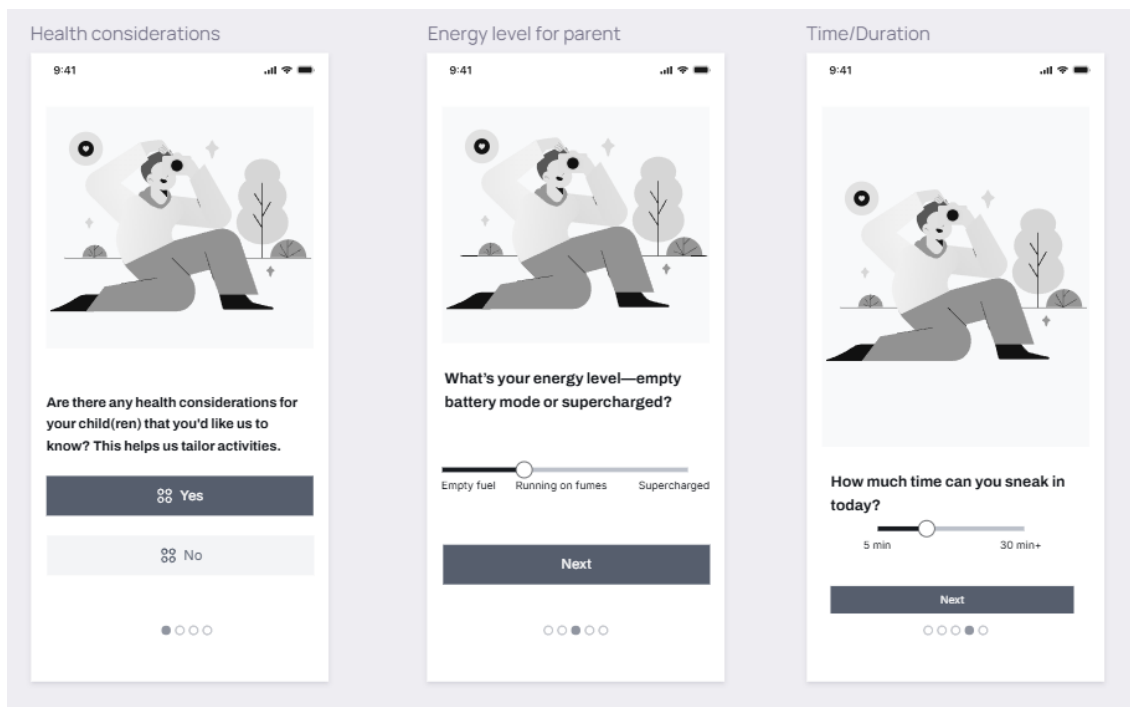

- Let us know about any health considerations for your child(ren) that could impact the activities we suggest.
- You can select an option from the dropdown menu or enter a custom input for specific needs.

Step 8: Your Energy Level

- How are you feeling today? Use the slider to share your energy level—this helps us suggest activities that match your mood and capacity.

Step 9: Available Time

- Lastly, let us know how much time you can dedicate to play today. Adjust the slider to set a duration, and we'll recommend activities that fit your schedule.

Step 10: Choose the Type of Play

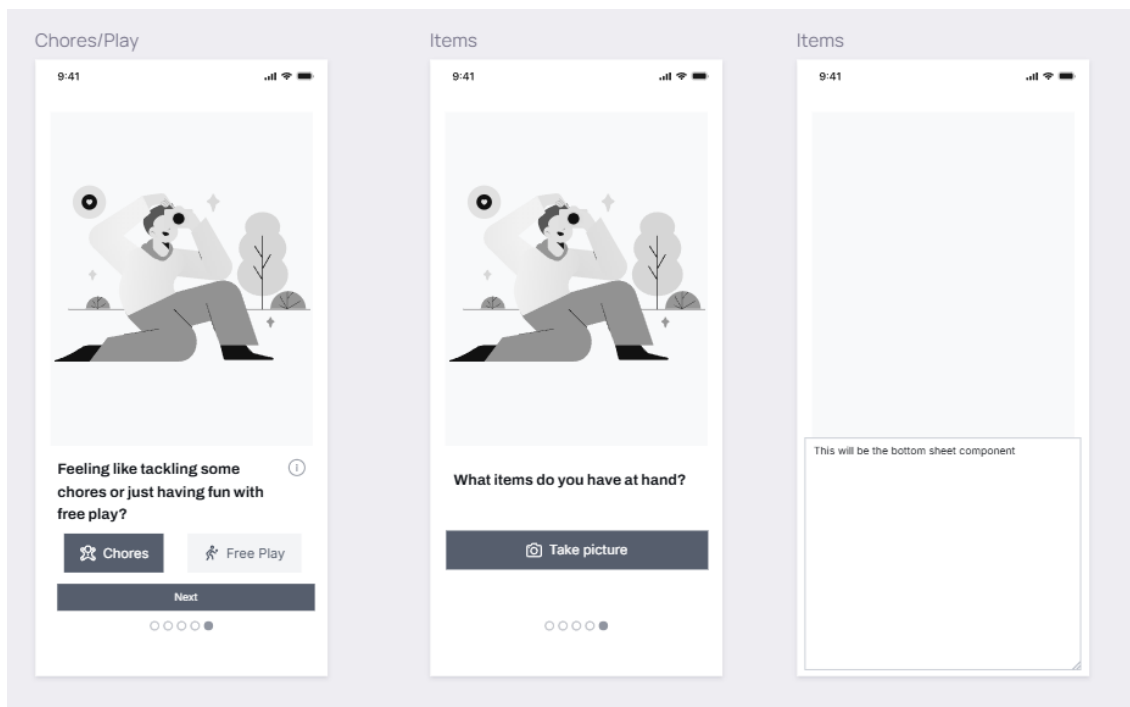

- Tell us what kind of activity you're looking for:
 - **Chore-based Play:** Activities that integrate everyday tasks like cooking, laundry, or washing dishes.
 - **Open Play:** Unstructured, creative play that encourages kids to explore, imagine, and have fun their own way.

Step 11: Share Items You Have

- Snap a picture of the items you have available for play.
- Our AI-powered system will analyze the image and identify the items to help craft a customized activity.

Step 12: Review and Edit Items

- Review the items identified from your photo.
- You can add or remove items using the text field to ensure the list matches what's available.

Step 13: Choose Skills to Focus On

- Let us know what skills you'd like to build during playtime:
 - **Cognitive skills:** Brain boosters like problem-solving, memory games, and critical thinking. 🧠
 - **Motor skills:** Activities to get those little hands and feet moving—gross and fine motor fun! 🏃‍♂️ 🦶
 - **Social/Emotional skills:** Foster friendships, empathy, and emotional regulation. 🤝
 - **Language skills:** Boost communication with speaking, listening, reading, and even humor! 🗣️
- You can select one, multiple, or all skills to tailor the activity to your goals.

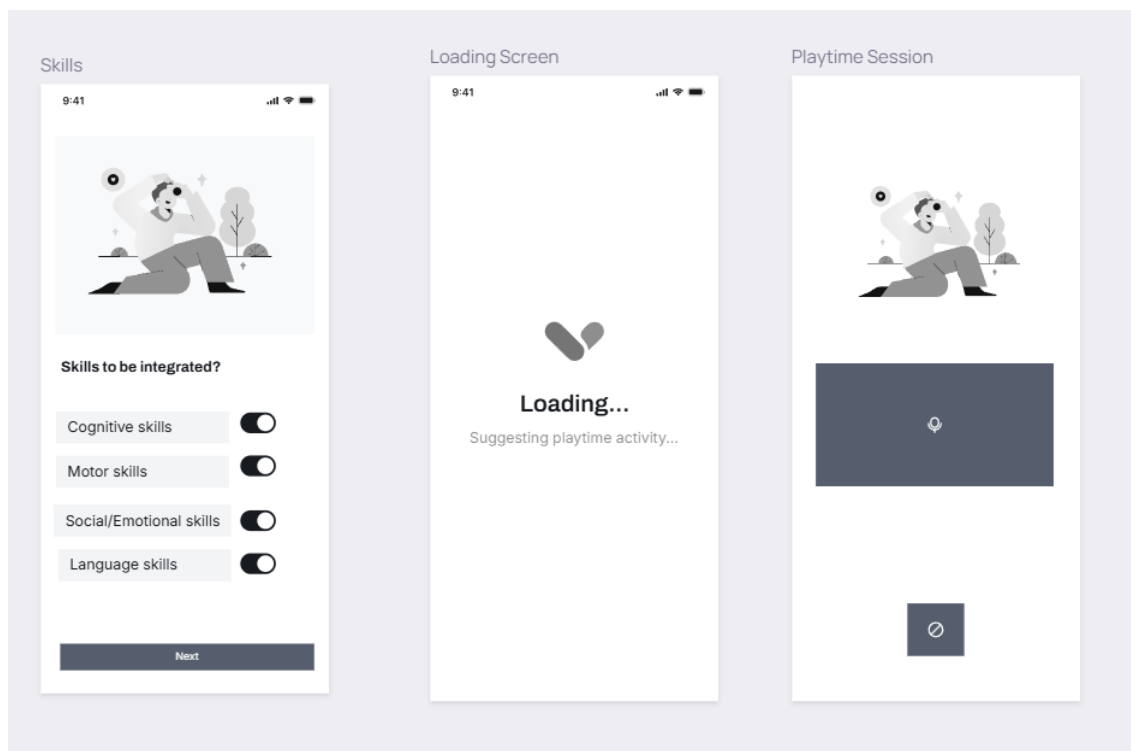

Step 14: Loading Screen

- Sit tight while we process your input! MUMBI will analyze your selections and generate a personalized playtime activity tailored to your child's needs and your preferences. ⌚

Step 15: Start Your Playtime Session

- It's time to play! 🎮 Here's what you can expect:
 1. You'll receive voice instructions guiding you through the activity.
 2. Use the **big central button** to:
 - Repeat instructions.
 - Skip to a new activity.
 - Pause or interrupt our AI-agent if needed.

- To end the session, tap the **Stop** button at the bottom of the screen. This will return you to the home screen, where you can start a new activity anytime.
